

Materials Recommended for UV Ink Jet Presses

(Includes Domino, Durst, Jetrion, Mark Andy, etc.)

| Component Code | Product Description (click for available structures) | Description |
|-----------------------|---|---|
| 055BS | Bright Silver Laminated Foil | Top coated 70# bright silver laminated foil. |
| 055BG | Bright Gold Laminated Foil | Top coated 70# bright gold laminated foil. |
| 055DG | Dull Gold Laminated Foil | Top coated 70# dull gold laminated foil. |
| 055DS | Dull Silver Laminated Foil | Top coated 70# dull silver laminated foil. |
| 056H5 | Rainbow Hologram Paper | 64# decorative prismatic diffraction paper. |
| 057MS | Silver Metalized Paper | 56# top coated silver metalized paper. |
| 054BZ | Blue Fluorescent Paper | Designed for laser, price marking, promotional and general roll label applications. |
| 054GZ | Green Fluorescent Paper | Designed for laser, price marking, promotional and general roll label applications. |
| 054OZ | Orange Fluorescent Paper | Designed for laser, price marking, promotional and general roll label applications. |
| 054PZ | Pink Fluorescent Paper | Designed for laser, price marking, promotional and general roll label applications. |
| 054RZ | Red Fluorescent Paper | Designed for laser, price marking, promotional and general roll label applications. |
| 054YZ | Yellow Chartreuse Fluorescent Paper | Designed for laser, price marking, promotional and general roll label applications. |
| 0WCSW | Classic Crest Solar White | Smooth, uncoated wet strength paper with an excellent printing surface, high strength, and dimensional stability. Perfect for wine labels and other upscale products. |
| 0WEL9 | Estate #9 Cream | Uncoated wet strength paper. Maintains its integrity when wet. Perfect for wine and other upscale labels, such as gourmet foods and cosmetics. |
| 020CL | 2.0 mil Clear TC BOPP | Clear top-coated BOPP, ultra clear for a no-label look. Perfect for health and beauty aid, household care, pharmaceutical, and beverage labeling. |

Materials Recommended for UV Ink Jet Presses

(Includes Domino, Durst, Jetrion, Mark Andy, etc.)

| Component Code | Product Description (click for available structures) | Description |
|-----------------------|---|--|
| 023WP | 2.3 mil White TC BOPP | White BOPP film with excellent compatibility using UV ink systems. High stiffness for conversion and automatic dispensing. Great choice for prime labeling. |
| 036CG | 3.6 mil Clear TC BOPP | Clear BOPP film with UV resistance and top coating suitable for UV ink systems. Can be used for window graphics, or other applications where a more substantial film is needed. |
| 036WG | 3.6 mil White TC BOPP | White BOPP film with UV resistance and top coating suitable for UV ink systems. Can be used for window graphics, or other applications where a more substantial film is needed. |
| 1CLPT | 1.0 mil Clear PET Overlams | A glossy, clear polyester overlamine film. Good clarity. Effective in durable applications – resistant to heat and chemicals. High tear strength. |
| 2VWPT | 2.0 mil Value White PET | A matte, white polyester film, top-coated for UV ink adhesion, and thermal transfer printing. Designed for durable applications – resistant to heat and chemicals. High tear strength. |
| VALUT | 42# Value Thermal Transfer | A thermal transfer sheet that offers a high performance at a lower cost. Strength and opacity are comparable to conventional thermal transfer facers. Exceptional print quality, especially for flood coating. |
| OTTFP | 44# Select Thermal Transfer | A multi-purpose thermal transfer sheet. Premium coating for enhanced graphics. |

*** Not all Green Bay Packaging products have been tested. Other paper and film facers may pass as well. **
 Note: Print quality is a subjective evaluation and customer perception may differ. In addition, print quality results may vary from lot-to-lot due to variations in the substrate.*
