## Materials Recommended for Water Based Ink Jet – Dye Presses

(Includes Memjet Platforms: Afinia, Colordyne, Trojan, etc., and Primera Ink Jet)

Component Code	Product Description (click for available structures)	Description
<a href="#">MCINK</a>	<a href="#">2.0 Mil Frosted Laser Ink Jet Polyester</a>	Multi-purpose sheet for both laser and ink jet printing. The matte finish disappears on most substrates. Produces clear, bright text and images on black and white, and color printers.
<a href="#">VALUT</a>	<a href="#">42# Value Thermal Transfer</a>	A thermal transfer sheet that offers high performance at a lower cost. Strength and opacity are comparable to conventional thermal transfer facers. Exceptional print quality, especially for flood coating.
<a href="#">054BZ</a> – Blue <a href="#">054GZ</a> – Green <a href="#">054OZ</a> – Orange <a href="#">054PZ</a> – Pink <a href="#">054RZ</a> – Red <a href="#">054YZ</a> – Yellow	<a href="#">Fluorescent Paper</a>	Designed for laser, ink jet, price marking, promotional and general roll label applications.
<a href="#">1DMEC</a>	<a href="#">60# 100% PCW Wet Strength Paper</a>	An FSC-certified sheet, 1DMEC is a 100% post-consumer waste paper with wet strength. Resistant to moisture, it is perfect for beverage applications, like wine, beer and chilled spirits. Its luxurious look will enhance upscale food and personal care products.

*\*\* Not all Green Bay Packaging products have been tested. Other paper and film facers may pass as well. \*\**

*Note: Print quality is a subjective evaluation and customer perception may differ. In addition, print quality results may vary from lot-to-lot due to variations in the substrate.*
