Green Bay Packaging Announces An All New State Of The Art Container Board Machine

GREEN BAY, WI – November 30, 2018 – Green Bay Packaging (GBP) has announced that it is in the first phase of evaluating construction of a new, state of the art recycled containerboard machine at its location in Green Bay Wisconsin. The 220” machine would be operational in 2020 and would replace the Company’s existing 164” trim machine, originally constructed in 1950. The investment would increase GBP’s recycled containerboard capacity by over 70%.

About Green Bay Packaging Inc.

Started in 1933, Green Bay Packaging is a family-owned, vertically integrated company consisting of corrugated container plants, folding cartons, recycled and virgin linerboard mills, pressure-sensitive label roll stock, specialty converting operations, timberlands, and a sawmill facility. Headquartered in Green Bay, Wis., Green Bay Packaging Inc. is dedicated to innovative development of its products and forestry resources, with a focus on quality, sustainability and continuous improvement throughout all of its manufacturing facilities.
