

Materials Recommended for Water-Based Ink Jet Pigment Presses

(Epson, NeuraLabel, Primera, and VIP Color)

Component Code	Product Description (click for available structures)	Description
050LB	Laser Bright	50# (74 g/m ²) bright white multi-purpose uncoated sheet designed for ink jet applications.
050LJ	Super Bright Laser Jet	51# (75 g/m ²) exceptionally bright, uncoated, multi-purpose sheet for ink jet printing.
06MIJ	Premium Coated Matte Ink Jet	A 61# (90 g/m ²) matte-coated ink jet sheet with good opacity. It's waterfast and provides an extremely high level of smear resistance. This facer offers high resolution imaging.
06INK	60# Matte-Coated Ink Jet	A 60# (88 g/m ²) matte-coated, acid-free, inkjet sheet with an exceptionally bright, blue-white shade. It provides high resolution imaging, and excellent smear and water resistance.
1DMEC	60# 100% PCW Wet Strength Paper	A 60# (89 g/m ²) FSC-certified, 100% post-consumer waste paper with wet strength. Resistant to moisture, its perfect for beverage applications, like wine, beer and chilled spirits. Its luxurious look will enhance upscale food and personal care products.
0WEL8	Estate Label® #8 White Smooth	60# (89 g/m ²) uncoated, white, wet strength paper. Maintains its integrity when wet. Designed for wine and other high-end labels, such as gourmet foods and cosmetics.
MCINK	2.0 Mil Frosted Laser Jet Polyester	2.0 mil clear, matte-frosted polyester, multi-purpose sheet for both laser and ink jet printing. The matte finish creates a label that disappears on most substrates. Produces clear, bright text and images on both black and white, and color printers.
2WLJP	3.5 Mil White Laser Jet Polyester	3.5 mil white matte polyester. It is a multi-purpose sheet for both laser and inkjet printing. The smooth surface allows graphics to really stand out on both black and white, and color printers.
095TK	4.2 Mil TC Kimdura	A 4.2 mil (92 g/m ²) Kimdura® BOPP specially top coated for ink jet and thermal transfer printing. Good choice when durability is needed.
046TV	TYVEK® 1073D	1073D Tyvek® is a 7.5 mil, strong, translucent polyolefin with exceptional strength and moisture resistance.
054BZ	Blue Fluorescent	57# (84 g/m ²) blue matte fluorescent coated paper. Designed for price marking and general roll label applications.
