Materials Recommended for Laser Presses (continued...)

Component Code	Product Description (click for available structures)	Description
0WCSW	Classic Crest Solar White	Smooth, uncoated wet strength paper. Perfect for wine labels and other upscale products.
70BWF	70# Bright White Felt	Uncoated, wet strength paper. Perfect for wine, beer, and other beverage labels. Its upscale look makes it ideal for food, home, and personal care products.
1DMEC	60# 100% PCW Wet Strength Paper	Perfect for beverage applications, like wine, beer and chilled spirits. Its luxurious look will enhance upscale food and personal care products.
1HOPS	60# Hops Wet Strength Paper With 30% PCW	Paper made with whole hops flowers. This is beer paper for beer labeling.
2WLJP	3.5 Mil White Laser Jet Polyester	Multi-purpose sheet for both laser and inkjet printing. The smooth surface allows graphics to really stand out on both black and white, and color printers.
KONAL	50# Kona Light Roast 100% Recycled PCW Paper	A blend of used coffee bean bag fiber and post-consumer waste. Perfect for labeling any coffee-related item, or environmentally-friendly packaging.
PLRWS	Polar White Wet Strength Barrier Paper	Smooth white paper with a back side barrier coating that keeps the facer opaque, even in an ice bucket or cooler.

Material has been tested for print quality, toner adhesion, scratch resistance, tape resistance, and adhesive durability through a variety of laser printers.

Note: Print quality is a subjective evaluation and customer perception may differ. In addition, print quality results may vary from lot to lot due to variations in the substrate.

**** Not all Green Bay Packaging facers have been tested. Other paper and film materials may print as well. ****
