

Materials Recommended for Water Based Ink Jet – Dye Presses

(Includes Memjet Platforms: Afinia, Colordyne, Trojan, etc., and Primera Ink Jet)

Component Code	Product Description (click for available structures)	Description
White Papers		
050ED	50# EDP Smudge Resistant	Bright white, uncoated paper with excellent smudge resistance. Designed for high performance.
R51LJ	50# Recycled Laser Jet	Bright white multi-purpose facer for laser and inkjet printing. Produced with 100% post-consumer waste.
Fluorescent Papers		
054BZ 054OZ 54RZ 054GZ 054PZ 054YZ	Blue Fluorescent Orange Fluorescent Red Fluorescent Green Fluorescent Pink Fluorescent Yellow Chartreuse	Designed for laser, ink jet, price marking, promotional and general roll label applications.
Specialty Papers		
0WCSW	Classic Crest Solar White Smooth	Uncoated wet strength paper with an excellent printing surface, high strength, and dimensional stability. Perfect for wine labels and other upscale products.
0WEL8	Estate #8 White Vellum	Uncoated wet strength paper. Maintains its integrity when wet. Designed for wine and other high-end labels, such as gourmet foods and cosmetics.
KONAL	50# Kona Light Roast	A 50# (74g/m ²) 100% recycled post-consumer waste product. It is a blend of repurposed coffee bean bag fiber combined with post-consumer waste material. Perfect for labeling any coffee-related product or environmentally-friendly packaging.
70BWF	70# Bright White Felt	Uncoated wet strength paper. Perfect for wine, beer, and other beverage labels. Its upscale look makes it ideal for food, home, and personal care products.
1HOPS	60# HOPS Wet Strength Paper with 30% PCW	Paper made with whole hops flowers. Contains 30% post-consumer waste for eco-friendly credentials. It has wet strength properties. This is beer paper for beer labeling.
PLRWS	Polar White Wet Strength Barrier Paper	Smooth white paper with a back side barrier coating that keeps the facer opaque, even in an ice bucket or cooler.

Materials Recommended for Water Based Ink Jet – Dye Presses

(Includes Memjet Platforms: Afinia, Colordyne, Trojan, etc., and Primera Ink Jet)

Component Code	Product Description (click for available structures)	Description
1DMEC	60# 100% PCW Wet Strength Paper	An FSC-certified sheet, 1DMEC is a 100% post-consumer waste paper with wet strength. Resistant to moisture, it is perfect for beverage applications, like wine, beer and chilled spirits. Its luxurious look will enhance upscale food and personal care products.
Primary Label Films		
2WLJP	3.6 Mil White Laser Jet Polyester	Multi-purpose sheet for both laser and inkjet printing. The smooth surface allows graphics to really stand out on both black and white, and color printers.
MCINK	2.0 Mil Frosted Laser Ink Jet Polyester	Multi-purpose sheet for both laser and ink jet printing. The matte finish disappears on most substrates. Produces clear, bright text and images on black and white, and color printers.
Thermal Transfer		
VALUT	42# Value Thermal Transfer	A thermal transfer sheet that offers high performance at a lower cost. Strength and opacity are comparable to conventional thermal transfer facers. Exceptional print quality, especially for flood coating.
Inkjet Papers		
050LJ	50# Super Bright Laser Jet	Exceptionally bright, uncoated, multi-purpose sheet for both laser and ink jet printing.
06MIJ	61# Matte-Coated Ink Jet	Matte-coated ink jet sheet with good opacity. It's waterfast and smear resistant. Offers high resolution imaging and is compatible with a broad array of inkjet printers.
06INK	60# Matte-Coated Ink Jet	Matte-coated, acid-free, inkjet sheet with an exceptionally bright, blue-white shade. It provides high resolution imaging, and excellent smear and water resistance. It is compatible with a broad array of inkjet printers.
